

LFP SERIES LED FLAT PANEL CCT ADJUSTABLE RANGE

The LFP Series now available in a CCT Adjustable, fully dimmable panel series incorporating the latest in LED panel technology.

The panels are suitable for both commercial and domestic applications, and are designed to fit directly into existing standard suspended ceilings and recesses, or can be surface mounted or suspended (Surface Mount & Suspension Kits supplied separately). These panels are ideally suited for office lighting and for meeting rooms and common areas such as corridors and access ways.
