The LUMINOS-CCT extended product replacement warranty requires online registration.
Visit www.syntechinternational.com.au/warranty to register your product.

The Luminos-CCT Series is now available in a flexible CCT selectable format delivering maximum colour flexibility on one compact panel format.

Incorporating the latest Tri-Module LED Light Engine, the new panel series offers a reliable flat solution for most commercial lighting applications.

The Luminos-CCT Series is now available in a flexible CCT selectable format delivering maximum colour flexibility on one compact panel format.

Incorporating the latest Tri-Module LED Light Engine, the new panel series offers a reliable flat solution for most commercial lighting applications.

The panels are designed to fit directly into existing standard suspended ceilings and recesses, or can be surface mounted or suspended (Surface Mount & Suspension Kits supplied separately).

These panels are ideally suited for office lighting and for meeting rooms and common areas such as corridors and access ways.

Immediate Start, Stable and Flicker Free performance

Unlike fluorescent technology, the Luminos-CCT Series achieves full illumination as soon as they are switched on and provide high quality flicker free illumination. Its Ultra-Thin construction and uniform size, make it an excellent retrofit solution for inefficient fluorescent technology.

LUMINOS CCT SERIES

At Syntech, we believe that a manufacturers warranty is your assurance of quality. This is why the Luminos-CCT Series is supported by a full five-year product replacement warranty.

All Syntech products comply to the latest AS/NZS Lighting Standards.
